Pet ID #: 1896107

I am good with kids, good with dogs, a special needs pets, and up to date with shots.

STERLING's story...

We are NOT an animal shelter. We are a foster-home run rescue group. The address listed here is only a mailing address, we do not maintain business hours at this location. Hi this is Sterling and he is about 8 months old and should grow to be about 60-80lbs. Overall he is a very healthy dog and ready for placement in a forever home. Sterling has been successfully treated for localized demodectic mange which is one of the most commonly diagnosed, non-contagious, skin diseases found in puppies and young dogs. The most obvious symptom is small circular areas of hair loss. As you can see in these pictures he is well healed and should live a long and healthy life. It is possible this skin condition could return however there are a number of options...

About Our Rescue Group...

Last Chance Animal Rescue Fund is a Charitable, not -for profit organization, created to save the lives of animals. We rescue animals that are located in "KILL" facilities and underwrite the costs of relocating them to "NO KILL" facilities in hopes of finding them a forever family. We work with local veterinarians for spay-neuter/ medical services until permanent placement is secured into a pre-screened loving home. We depend on donations to continue to save these helpless loving animals from being killed and hope that you will consider supporting our cause..... saving as many lives as we can.
